Made in USA

Architectural Specifications - Short Form
Go to www.freestyleflooring.com for complete CSI-format Architectural Specifications.

FreeStyle
All floors as indicated in the Finish Schedule or listed in this specification shall be FreeStyle Vinyl Floor Tile, manufactured by SelecTech, Inc., Avon, MA, style code (insert style code). Tiles shall be made from at least 50% recycled materials. The product shall be an interlocking floor tile and be available in 18.5" x 18.5" (47.0 cm x 47.0 cm) squares (nominal) and with a thickness of 0.375 inches (9.53 mm). The product shall offer a 10-year Limited Warranty against wear as detailed in the FreeStyle Warranty brochure. Tiles shall be installed as a free-lay product without adhesives. Installation shall be as recommended in the FreeStyle Installation Guide.

SelecTile
All floors as indicated in the Finish Schedule or listed in this specification shall be SelecTile Resilient Flooring, manufactured by SelecTech, Inc. Taunton, MA, color code (insert color code). Black flooring tiles shall be made from 100% recycled materials. Other color SelecTiles shall be made from at least 10% recycled materials. The product shall be an interlocking floor tile and be available in 23.75" x 23.75" (60.3 cm x 60.3 cm) squares and with a thickness of 0.22 inches (5.59 mm). The product shall offer a 10-year Limited Warranty against wear as detailed in the SelecTile Warranty brochure. Tiles shall be installed as a free-lay product without adhesives. Installation shall be as recommended in the SelecTile Installation Guide.

Installation
All SelecTech flooring products are interlocking floor tiles. FreeStyle tiles are 18.50" x 18.50" or 2.38 square feet (47.0 cm x 47.0 cm or 0.22 square meters) per tile. Due to the large tile size, use a waste/contingency factor of between 3% and 5% when estimating a job. A plastic deadblow mallet should be used for joining tiles. Use of a vinyl tile cutting tool or saw is required for cutting around obstacles. All SelecTech flooring products are free-lay systems that do not require adhesives and may be installed over concrete, wood, asbestos tile, rubber, vinyl composite tiles and other standard floors. A 1/4" (6.35 mm) gap around the perimeter should be left to allow for expansion and contraction. See FreeStyle or SelecTile Installation Guides or go to www.freestyleflooring.com for additional instructions.

Maintenance
SelecTech flooring products can be cleaned with neutral or other readily available cleaners using a mop or sponge or with a power scrubber or buffer equipped with a white pad. See FreeStyle or SelecTile Maintenance Guides or go to www.freestyleflooring.com for additional instructions.

Warranties
SelecTech flooring products are backed by a 10-year limited warranty against wear and a one-year warranty against manufacturing defects. Unlike many other flooring products, warranties on SelecTech flooring products are NOT VOIDED because of problems caused by moisture and hydrostatic pressure in the subfloor, or by buyer's failure to use manufacturer's specified adhesive. See www.freestyleflooring.com for warranty details.

Color and Pattern Accuracy
Colors and patterns shown in this brochure are reproduced as closely as possible to actual SelecTech product colors and patterns as printing processes allow. SelecTech assumes no responsibility for differences between printed and actual colors and patterns. Contact SelecTech for product samples. Delivered product will conform to samples within such reasonable variation as is acceptable within the trade.

Free Style™ VINYL

Place ‘N Go™ Interlock System
- Place directly over…
  existing floors without removing…
  asbestos & asphalt tile, resilient,
  wood, VCT, concrete
  problem subfloors... cracks, high moisture, irregular surfaces
- No adhesive needed
- Easy to replace, move & reuse... no cutting
- Nature’s Wood (straight grain & parquet styles) and Classic Stone patterns
- 50% recycled vinyl and carpet
- 100% cradle-to-cradle recyclable
- Eligible for LEED™ points

Commercially Rated
- 10-year limited wear warranty
- 20-mil wear layer
- Waterproof, anti-microbial, chemical & stain-resistant composition
- Stays in-place under 250 p.s.i. point loads
- Low noise, excellent comfort under foot
- ADA slip-resistant compliant

Environmentally Preferred

Saves Money
- Fast installation
- Minimal subfloor prep
- Immediate walk-on
- No downtime or disruptions
- Cost up to 100% deductible first year
- May qualify for 50% bonus depreciation

SelecTile vinyl floor tiles are made of recycled PVC materials and utilize a unique interlocking edge design to eliminate the need for adhesives, making installation quick and inexpensive.

Non-porous, flexible and durable, SelecTile remains in-place even with heavy traffic and abuse. It can be installed directly over damaged or problem floors with minimal subfloor prep, is resistant to most solvents, chemicals and abrasion, and is easy to maintain, reconfigure or remove.

**SelecTile Industrial**
SelecTile Industrial is designed for use in heavy-duty, high-traffic industrial, manufacturing, institutional, transportation, shipping, warehouse and similar areas. It withstands point-loads of up to 1,000 p.s.i., including forklifts, pallet jacks, carts and other wheeled conveyances and requires minimal maintenance.

**Patterns and Colors**
SelecTile Industrial is available in smooth, coin and diamond surfaces in seven standard colors. For custom colors, contact SelecTech for minimum order quantity requirements.
### SelecTech Flooring Specifications

**Properties and Test Results** Test methods shown below apply to many commercial vinyl flooring products. As a hybrid product, FreeStyle meets and exceeds test results specified throughout the industry as performance standards.
